Kevin Nguyen

Berkeley, CA | +408-802-4042 | nguyenkevin16@gmail.com

Skills

Ruby	JavaScript	C++	jQuery	HTML5
Rails	React.js	Redux	SQL	CSS3
Electron	Jest	Enzyme	RSpec	git

Experience

App Academy, Software Development Intern
San Francisco, CA | January 2017 – March 2017
o Implemented IPv4 based attendance in Rails for cohorts up to 70 students
o Conducted technical and non-technical interviews of coding bootcamp applicants in Ruby, JavaScript, Python, and Java

Projects

youtubefordesktop.com | github   *Front-end* | React.js, Electron
A cross-platform desktop client built for youtube
o Utilized YouTube Data API v3 to pull trending videos based on global region
o Led implementation of unit and integration testing in Jest and Enzyme

encore-audio.us | github   *Full-Stack* | React.js, Rails
A single-page web application inspired by SoundCloud
o Constructed custom audio player via native HTML5 audio tags for enriched UX
o Stored audio data by limiting jQuery AJAX requests to speed up audio playback
o Integrated Cloudinary CDN to store audiovisual data for cached delivery

ucscrugby.com | github   *Full-Stack* | React.js, Rails
A web app designed for the UCSC D1-AA Men's Rugby Team (in progress)
o Combined social media feeds into a single data stream for real-time updates
o Managed and updated content on the original site

Education

De Anza College, Computer Science
o Relevant Coursework: C++, Data Structures & Algorithms, Linux/Unix, TCP/IP

UC Santa Cruz, Human Biology B.S.
o Relevant Coursework: Multivariable calculus, Statistical Methods, Physics
